Our obsession with precision and flawless motion makes Artisan quietly the best and smoothest folding door system

Artisan incorporates a technologically advanced folding door system that surpasses that of ordinary bi-folds on the market.

It moves and feels like no other, because it's made like no other.

At the heart of it all – Effortless Motion Technology (emt), Capral's AGS 'Smart Hinge' and 'Easy Gliding' Channel help make Artisan simply the best and smoothest door available today.

The Artisan folding door combines aluminium with high quality 316 marine grade stainless steel components. The integrated folding door system has excellent weather tightness, security, environmental performance, structural performance, size and function including internal and external 90° corners.

Designed and tested to comply with Australian Standard AS2047.

Incorporates multi-point locking for added security.

A range of handle styles and colours.

Range of sill and stile options to suit your application and performance requirements.

Features include:

- Super strong head (1)
- Heavy duty roller, capable of taking 75kg load per panel (2)
- AGS 'Smart Hinge' using 316 marine grade stainless steel (3)
- AGS 'Smart Groove' technology for superior fabrication (4)
- AGS multi-point locking system (5)
- Sill options including channel, flat and high performance (6)
- AGS 'Easy Gliding' Channel (7)
- Slim operating handle with adjustable positioning height
- Lockable twin bolt mechanisms for additional security
- Up to 4 point locking system allowing dual side entry
- Accepts single, thick and double glazing

- Maximum Panel Height: 3000mm
- Maximum Panel Width: 1000mm
- Maximum Panel Weight: 75kg
- Serviceability Wind Pressure: Up to 2200 Pa
- Ultimate Wind Pressure: Up to 4200 Pa
- Water Penetration Resistance: Up to 1000 Pa
- Acoustic Rating: Tested up to 36 Rw
- Energy Ratings: WERS ratings available from www.wers.net

artisan fully complimented by a range of AGS systems

The Artisan folding door is backed with full technical detail, supporting and assisting architects and designers to accurately specify Artisan products into project work. To view the full range of AGS products plus gain access to Capral's CAD files and technical manual library, visit capral.com.au

900 High Performance Sliding Door

Performance with style – Experience the ultimate in architectural design, high performance weathering, low air infiltration, commercial strength and functional versatility.

950 High Performance Sliding Window

Partnering simplicity with performance – Architectural style coupled with commercial quality and designer hardware to produce a system ideal for a wide range of applications.

Euro Tilt & Turn

When functionality counts – Providing both ventilation and ease of access for cleaning, European Tilt & Turn technology provides an ideal solution for a common problem.
